Dear Parents,

As discussed in our last Lambertville Performing Arts Committee meeting, this spring the students in grades 4 through 6 will be involved in a Reader's Theater project. The students will form groups, choose a literary work, and begin developing a theatrical performance. The Reader's Theater experience will allow each small group to create a comprehensive, age appropriate production that will culminate in performances for our primary grade students.

I believe that the Reader's Theater project will be quite rewarding for our students as it will offer multiple lead parts as well as opportunities for set design, writing, artistic interpretation, and over all a theatrical work that is completely owned by the students.

Sincerely,

Timothy Angst
