

Dear Inventors!

Attached is a template for your Invention Design.

Please make your Invention Design Poster look as close to the attached paper as possible and be sure to use full sentences!

Posters can be up to 17x11 inches in size and should be colorful, fun, and creative!

Rough drafts of the Invention Design will be reviewed at the beginning of May. Final drafts will be due mid-May.

Please contact shannon.birckhead@shrsd.org (LPS) or martha.kubik@shrsd.org (WA) with any questions.

Thank you!

- The Invention Convention Committee

Invention Name

Problem: Here you will explain the problem that your invention will help solve.

Description: Describe your design; include size, materials used, power source, etc.

Solution: Here you will explain how your invention will help solve the problem.

Design:

Here you will draw a picture of your design; label the parts.

Your Name, Grade, School
